Au-delà de l'égalité salariale, soutenir un développement durable inclusif

Since many years, BPW Europe is managing an important project about the **equal pay for equal work**, a pillar on the decent work matter, involving all Federations and Clubs.

The EPD Campaign, started in the year 2008, has the aim to reduce the gender pay gap and to call the attention of the Institutions.

Before no one spoke about this problem; now the movement of opinion there is and it is strong.

The campaign on Equal Pay day had and has the merit to increase the awareness on this issue and many countries are approving appropriate laws and is considered as a success, the law entered into force in Iceland and France, the first countries in the world to apply seriously the equal pay for equal work.

BPW Europe achieved another important result: now the equal salary for equal work is one of the seventeen sustainable development goals, on the Agenda 2030.
